SUMMARY

Motivated Software Engineer with experience in backend development, REST APIs, databases, and cloud technologies. Passionate about building scalable applications and solving complex technical problems.

EDUCATION

University of Technology

Bachelor of Science in Computer Science

2021 – 2025

EXPERIENCE

Backend Developer Intern

June 2024 – August 2024

Tech Solutions Inc.

- Developed RESTful APIs using FastAPI.
- Integrated PostgreSQL databases using SQLAlchemy ORM.
- Implemented Redis caching to improve API performance.
- Collaborated with frontend and DevOps teams.

PROJECTS

TalentForge

- Built an AI-powered interview preparation platform.
- Implemented JWT authentication and role-based access control.
- Integrated Redis caching and Celery background processing.
- Containerized services using Docker Compose.

Task Manager API

- Designed and developed a task management backend.
- Implemented CRUD operations and pagination.
- Added automated testing using Pytest.

TECHNICAL SKILLS

Python

FastAPI

Django

PostgreSQL

Redis

Docker

Git

Linux

REST APIs

SQLAlchemy

CERTIFICATIONS

AWS Cloud Practitioner

Docker Fundamentals

LANGUAGES

- English (Fluent) - Spanish (Intermediate)
